metwork

GO-TO-MARKET PLAN

Metwork growth plan 2026–2027

Acquire freelancers and founders in Algeria,
then convert them to Premium. Phase by phase, over 12 months.

5	12	600+	1.4 M DA
phases	months	paying users	MRR target

1

EXECUTIVE SUMMARY

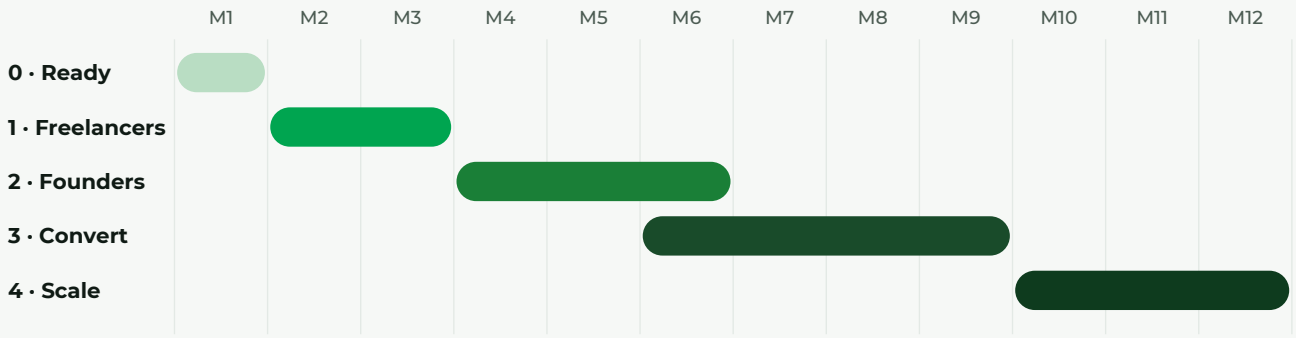

Freelancers first, founders next

Win freelancers with tools they use every day. Use their clients and the creation guides to win founders. Turn both into Premium users by showing, in DZD, what Premium saves them.

Recommendation

Start with **freelancers**. They get value on day one (invoices, DZD payment links, the tax center, the copilot), before any network exists, and every link or invoice they send shows Metwork to a paying client, often an entrepreneur. Once the directory is full, the **Recruter** tab and the business-creation guides bring founders in.

The 12-month roadmap

Phase	When	Job	Exit target
0 · Ready	Weeks 0–4	Deploy, measure the funnel, prepare content and offers	Funnel tracked end to end · 20 pieces of content
1 · Freelancers	Months 1–3	Freelancers who invoice and get paid through Metwork	1,500 sign-ups · 600 complete · 250 active
2 · Founders	Months 3–6	Turn freelancer supply into founder demand	1,000 founders · 150 hiring orders
3 · Convert	Months 5–9	Make Premium the obvious choice	7–10 % of active users paying
4 · Scale	Months 9–12	More cities, B2B deals, ads that pay back	8,000 users · 600+ paying

Targets are planning targets to re-set after the first six weeks of real data, not market statistics.

2

POSITIONING

One app to run your work

Metwork is the business app for Algerian freelancers and founders. You get paid in DZD, invoice legally, stay in order with the tax office, and find clients, talent or a cofounder, all in one place.

FREELANCERS & AUTO-ENTREPRENEURS

« Facturez, encaissez, déclarez. Sans stress. »

THEIR PAIN
Clients pay late or in cash · invoices on Word · fear of the tax office (IFU, G12, CASNOS) · no steady clients

METWORK ANSWERS
Payment links (CIB, Edahabia) · legal invoices and quotes · tax calendar and copilot · orders from founders

FOUNDERS & ENTREPRENEURS

« Créez, recrutez, avancez. »

THEIR PAIN
Don't know where to start (SARL or personne physique?) · can't find reliable freelancers · building alone

METWORK ANSWERS
Step-by-step creation guides · hiring tab with 50/50 payments · cofounder matching · copilot

INCUBATORS & COWORKINGS

« Vos membres sur Metwork. »

THEIR PAIN
Need members, full programs and simple payments

METWORK ANSWERS
Already served by Metwork (spaces, programs, contracts, invoices) → become a distribution channel

Brand voice: concrete, local and reassuring. French for the product, Darija for social media, Arabic on every page. Every message ends with one action: create a profile, send a payment link, ask the copilot.

3

WHO FIRST

Why freelancers come first

Criterion	Freelancers	Founders
Value with no network yet	High: invoices, links, tax and copilot work on day one	Medium: hiring needs freelancers first
Reachability	Very online: Facebook groups, Instagram, LinkedIn, TikTok	Scattered: incubators, events, guides
Built-in virality	Every payment link and invoice is seen by a client	Cofounder likes, quote requests
Premium ROI	Easy to prove in DZD (fees and commission)	Discounts, priority, unlimited requests
Unblocks the other side	Yes: they are the supply founders hire	Brings orders to freelancers in phase 2

The Premium maths to show freelancers

On Free, payment links cost **3 %**. Above about **83,000 DA a month** through links, Premium (**2,500 DA**) costs less than the fees it removes, and sourced missions drop from **10 % to 7 %**. Put this calculator on the pricing page and in the wallet.

PHASE 0 WEEKS 0–4

Ready

Nothing gets marketed before the funnel is measured and the first experience is smooth.

0

- **Deploy** phases A–E and test on real phones: notifications, copilot, freelancer contract, payment link paid end to end.
- **Track the funnel** in PostHog: sign-up → phone verified → profile 100 % → contract signed → first invoice or link → first payment → Premium. One dashboard, every Monday.
- **Two landing pages**: /freelancers (live) and a founders page built on the creation guides, each with one call to action and a 60-second video (Darija voice, French subtitles).
- **Onboarding messages** (email, WhatsApp, push) on days 0, 1, 3, 7 and 14, each pushing the next step: finish your profile for 1 free Premium month, send your first link, ask the copilot.
- **Referral rules**: when a referred freelancer reaches 100 %, both sides get 1 Premium month. Founders get the same when a referral creates a venture.
- **Content bank**: 20 short videos and 20 carousels ready before launch.
- **WhatsApp channel** « Metwork Freelance DZ » for tax reminders and opportunities.

Exit criteria: funnel dashboard live · sign-up to 100 % in under 15 minutes on a phone · 20 pieces of content scheduled.

PHASE 1 MONTHS 1–3

Freelancers first

Get the first 1,500 freelancers. Make 250 active, sending an invoice or link each month.

1

LAUNCH CAMPAIGN

« Les 500 fondateurs »

The first 500 freelancers at 100 % get a **Founding Member badge** for life, **2 Premium months** instead of 1, and priority in the hiring tab in phase 2. A public counter (« 312 / 500 places prises ») creates urgency without spending on discounts.

Phase 1 · Channels, in order of priority

Channel	What to do	Cadence
Facebook groups (freelance, design, dev, translation, e-commerce DZ)	Useful posts, not ads: « Comment se faire payer par CIB sans site », « IFU 0,5 % expliqué », linking to the copilot	5 / week
Instagram + TikTok (Darija)	Tax deadlines, a 30-second payment-link demo, freelancer stories, myth-busting (« la carte AE c'est compliqué ? »)	4–5 videos / week
LinkedIn (founder's account)	Build in public: numbers, lessons, features shipped. Where B2B clients and founders look	3 / week
Micro-influencers (5k–50k)	10 Algerian freelancers and creators: free Premium + a referral code, paid per active referral, never per post	10 partners
Universities & clubs	Workshops « Devenir freelancer légalement en 2026 » in Oran, Alger, Constantine and Tizi; clubs as ambassadors	2 / month
Incubators on Metwork	Their members first: co-branded sessions, a Metwork corner, QR posters	All partners

Moments to own: the tax calendar

- Every deadline is a campaign: **G12** (before 30 June), **IFU instalments** (September and December), **CASNOS**, and the yearly ceiling check. Two weeks before each one: « Votre échéance arrive. Le copilote vous explique tout en 2 min. »
- Ramadan and the end of the year: « bilan freelance » content built on the tax center's yearly figures.

Targets · end of month 3

1,500	**600**	**250**	**60–90**	**≥ 25 %**
freelancer sign-ups	profiles at 100 %	active each month	paying Premium	from referrals

PHASE 2 MONTHS 3–6

Founders

Bring founders in through three doors, then make the first hiring orders happen.

2

DOOR 1

The freelancers' clients

- On every payment page and invoice: « Vous aussi, recrutez des freelancers vérifiés sur Metwork », with the freelancer's referral code.
- Freelancers earn a free Premium month when a client they invited places an order.

DOOR 2

« Créer son entreprise en Algérie »

- Turn the copilot guides (SARL, EURL, personne physique, carte AE) into public SEO articles and a FR/AR checklist; sign-up unlocks the saved tracker.
- Weekly videos: « Personne physique ou morale ? », « Registre de commerce en 24 h », « Le NIF en ligne ».
- A monthly live « Créer sa boîte » with a platform consultant, which also promotes your consultants.

DOOR 3

Incubators, programs and events

- A **cohort pack** for partner incubators: the Founder plan for every startup in a cohort, billed to the incubator.
- Startup events and hackathons: demo hiring, guides and copilot together.
- Cofounder matching for solo founders: « Trouve ton cofondateur » campaigns.

Do things that don't scale: for the first 100 orders, a team member matches each quote request with 3 freelancers within 24 h. Publish the stories: the logo designed, the site delivered, the deposit and balance paid safely.

Targets · end of month 6

1,000	400	150	3,500	200–250
founder sign-ups	ventures created	hiring orders paid	total users	paying

PHASE 3 MONTHS 5–9

Convert to Premium

Conversion should come from moments in the product, not from discounts.

3

Upgrade moment	What the user sees
Payment-link fee	In the wallet: « Ce mois-ci vous avez payé 3 450 DA de frais. Avec Premium : 0 DA. »
Quota reached	3rd gig, 6th invoice, 16th copilot question, 11th client: a friendly paywall with the exact benefit and a 1-tap upgrade
Sourced commission	On each order: « Commission 10 % → 7 % avec Premium : vous auriez gardé 1 350 DA. »
Tax deadline	Pre-filled amounts are Premium: « Votre G12 pré-remplie vous attend. »
End of the free months	7, 3 and 1 day before: what Premium saved them, then the annual offer (−20 %)
Founder plan	Consultation and space discounts shown at checkout · unlimited quote requests · cofounder chat

- **Annual billing first**: push semester and yearly plans (−20 % / −30 %) to cut churn and bring cash in early.
- **Win-back**: on cancel, ask why and show their month in numbers; offer one free month after 30 days of inactivity.
- **Ambassadors**: the top 50 referrers get lifetime Premium, a badge, early access and a WhatsApp group with the team.

7–10 %
of active users paying

< 6 %
monthly churn

≥ 40 %
new plans billed by semester or year

PHASE 4 MONTHS 9–12

Scale

4

More cities, B2B deals, and paid ads only where they pay back.

- **Metwork Tour**: Constantine, Sétif, Tizi Ouzou, Béjaïa, Annaba, Blida. One university workshop and one meetup per city, with local ambassadors.
- **Paid ads** on the best organic videos only. Keep a campaign while its cost per paying user stays under about 3 months of revenue (CAC under about 7,500 DA for a freelancer).
- **B2B**: bulk licences for incubators and universities; training centres (their graduates become freelancers); co-marketing talks with a bank or payment provider on CIB and Edahabia.
- **Metwork Night** every quarter: founders × freelancers, hiring speed-dating, cofounder matching live.
- **Diaspora**, later: Algerian freelancers abroad, and clients in France and Canada hiring Algerian talent.

8,000	2,500	600+	~1.4 M DA
total users	monthly active	paying	monthly recurring revenue

The business model at month 12

About **600 paying users** at an average of **2,300 DA** (Freelancer Premium 2,500 DA · Founder 1,900 DA) is **~1.4 M DA of monthly recurring revenue**, before commissions on payment links and hiring orders.

4

PLAYBOOK

Content, budget and scorecard

Content themes (every phase)

Theme	Examples	Format
Get paid	Payment link in 30 s · deposit 50/50 · « fini les clients qui ne paient pas »	Reels, demos
Stay legal	IFU 0,5 % · G12 step by step · CASNOS 24,000 DA · AE ceiling · timbre on cash invoices	Carousels, lives
Start a business	SARL vs EURL vs personne physique · CNRC · NIF · déclaration d'existence G08	SEO articles, checklists
Stories	Freelancer and founder interviews · first order · first 100,000 DA	Video interviews
Build in public	Numbers, features shipped, roadmap votes	LinkedIn, WhatsApp

Lean monthly budget (DZD)

Organic and partnerships come first. Ads only get money once a video has proven itself organically.

Item	Phases 0–1	Phases 2–3	Phase 4
Content (editor, designer, part-time)	60–90k	90–120k	120–150k
Micro-influencers (per active referral)	30–50k	50–80k	80–120k
Workshops & events	20–40k	40–60k	80–120k
Paid ads (Meta / TikTok)	0–20k	40–80k	150–300k
Free Premium months	No cash, tracked as acquisition cost		

The weekly scorecard: Mondays, 30 minutes, one owner per number

Stage	Metric	Healthy level
Acquire	Sign-ups per week · share from referrals	Growing week on week · ≥ 25 %
Activate	Sign-up → 100 % profile	≥ 40 % within 7 days
Activate	100 % → first invoice or link	≥ 50 % within 14 days
Engage	Monthly active ÷ total	≥ 30 %
Convert	Active → paying	7–10 %
Retain	Paying churn per month	< 6 %
Marketplace	Quote requests → paid orders	≥ 25 %

5

EXECUTION

Your first 90 days

Weeks	Actions
1–2	Deploy and test on phones · PostHog funnel · referral rules live · onboarding messages · record 10 videos
3–4	Founders landing page from the guides · WhatsApp channel · sign 10 micro-influencers · book 2 workshops · brief partner incubators
5–6	Launch « Les 500 fondateurs » · daily posts in Facebook groups · first workshop · first ambassador group
7–8	First 5 freelancer stories · first tax-deadline campaign · fix the 3 biggest funnel drop-offs
9–10	Open hiring to founders once 300+ freelancers are listed · banner on payment pages · hand-match the first quote requests
11–12	Upgrade moments live (fee savings, quotas) · first annual-plan push · decide on ads using which videos did best organically
13	Review against targets: continue, adjust the offer, or double the channel that works

Risks and answers

Risk	Answer
Freelancers sign up but never get paid through Metwork	Onboard around the first payment link, not the profile; celebrate the first payment (push + badge)
Founders find too few good freelancers	Open founders only at 300+ listed; curate categories; hand-match the first orders
Free months that never convert	Free months only at 100 %; show savings before they end; push annual billing
Trust in payments	Signed freelancer contract, 50/50 orders, verified documents and reviews: say it loudly
SMS delivery in Algeria is unreliable	WhatsApp and push first, email as the backup

In one sentence

Win freelancers with tools they use every day, use their clients and the creation guides to win founders, and turn both into Premium users by showing, in DZD, what Premium saves them.
